**SA International Announces the Release of  
Flexi and PhotoPRINT version 10.0.3**

Salt Lake City, UT – July 13, 2011 – SA International (SAi), the leading provider of Solutions for the Professional Sign Making, Large Format Digital Printing and CAD/CAM for CNC Machining Industries, today announced the latest release for Flexi and PhotoPRINT – version 10.0.3.

Thanks to the important feedback from Flexi and PhotoPRINT users and partners, SAi has released its latest update to Flexi and PhotoPRINT 10, version 10.0.3. SAi is offering this update free to anyone who owns Flexi or PhotoPRINT 10.

Some highlights of the update include features like enhanced Fotoba support, certified drivers and profiles for the HP HPZ6200 Series, support for Roland VS, LEC, and LEJ, RGB 8bit profiling, easy weeding around groups, cut overlapping lines once, and many new printer and cutter drivers. For a full list of updates, visit <http://www.saintl.biz/files/SAi%20ProductionSuite%20Readme.pdf>.

The new release is available for instant download from [www.FlexiSIGN10.com](http://www.FlexiSIGN10.com) or [www.PhotoPRINT10.com](http://www.PhotoPRINT10.com). An installation disk containing the updates will begin shipping with all Flexi and PhotoPRINT packages for Microsoft Windows within the next two weeks.

“SAi is pleased to offer this update to our customers and resellers as a free service,” says Don Feagan, President and COO. “After months of compiling a list of requests and reported issues, our team’s efforts have culminated in this robust free update.”

**About SA International**

SAi is recognized as a global leader in providing complete, professional solutions for the sign making, digital printing and CNC machining industries. The Company’s solutions help turn creative ideas into reality by providing world-class design and editing tools geared for production. Headquartered in Salt Lake City, Utah, SAi has additional offices in Belgium, Brazil, and China.
